Report for the regional and national web sites.

The S/E Region agreed to fund a Go-Ride S/E Region interclub series of event for September 07 to August 08 in line with go-ride objectives of fostering interclub competition.

As some go-ride clubs are large and well established whilst others are small and in their infancy the competition was between riders of go-ride clubs rather than a club –v- club competition.

With the help of BC regional coaching staff the regional coaching co-ordinator board member approached go-ride clubs asking them to promote a stand alone go-ride event or run as part of an existing event. Seven clubs ran eight events over the year and the Region supported them on administration issues and supplied event medals for the 1st three boys and girls in each age category. A regional board member was on hand at each event to present medals.

Riders were awarded points per round ranging from 5 for first place to 1 point for fifth with the best six results counting towards a riders series total. The region will be holding a trophy presentation in early October.

The first event of the 08/09 series will be a road race at Fowlmead Country Park on a purpose made cycling circuit in September.

We hope to move from strength to strength and have larger fields for the coming series.
